

Discover the joy

Our Model Range

About us

We make the world's leading jet tenders **so you can make the memories.**

Since we launched our first boat in 1996, we have been changing the game and challenging the boundaries of boat building. Today, we are recognised as the pioneers of luxury, high-performance jet tenders... and we're just getting started.

Compelled by a desire to explore, we remain dedicated to evolving our craft through cutting-edge technologies, materials and processes that are fit for the future.

Built with passion, unrivalled expertise and exceptional craftsmanship, our boats are made to give you memorable moments on the water.

Discover the joy.

Our story

The original craftsmen.

1997

A classic Italian-inspired runabout, Jade, is launched to the world.

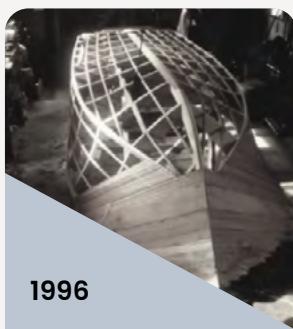

2002

The dawn of a jet-powered era begins with the creation of the Ski Rib.

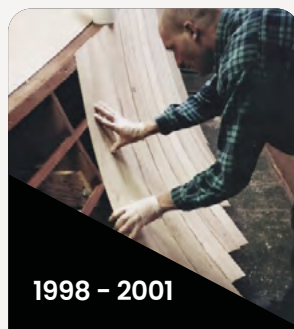

2005

The TurboJet range is launched and production soars to 900 tenders a year.

1996

Founded by brothers Mathew and John Hornsby in a garden shed, Williams built their first boat, Jade.

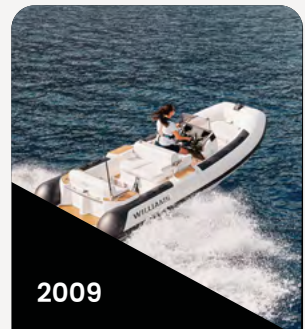

1998 - 2001

Further models Izana and Topaz are built following the success of Jade.

2004

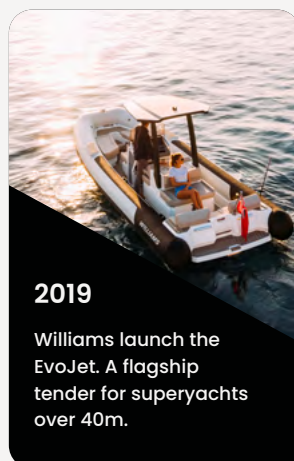

Williams Jet Tenders is officially founded by Mathew and John Hornsby, and Roy Parker.

2009

The first DieselJet tender is introduced.

Greatness, it takes time. A passion for craft, a commitment to do things the right way, the aim of perfection countered by the constant need to improve – there are no shortcuts to these things. After all, we've been leading the way since 1996, **and we're just getting started.**

This is only the story so far... follow our journey and discover the joy.

 @williamsjettenders

Why Williams

The world's
finest yachts
are built with
Williams in mind.

Made for each other.

Our long-standing relationship with yacht builders means our tenders fit seamlessly with their garage systems, ensuring style, practicality and performance come as standard, but the experience of a Williams tender remains uniquely special.

Why Williams

Join the
prestigious
Williams family.

One group, two exceptional brands.

Williams owners become part of a wider family of boating enthusiasts, brand ambassadors and industry partners who share a passion for craftsmanship, adventure and excellence on the water.

WILLIAMS MARINE GROUP

You're in safe hands.

Quality, performance &
reliability as standard

Extensive dealer network

Trusted Aftersales support
and parts

F1 Driver
Esteban Ocon

Williams & Evene Brand Ambassador

Why Williams

The adventure is
in your hands.

Built with passion, unrivalled expertise and exceptional craftsmanship, our boats are made to give you memorable moments on the water.

Discover the joy.

Watersports

Rip-roaring performance for watersports

Explore beaches

Navigate shallow waters & glide onto beaches

Learner mode

Rotax Engine Restricts RPM and Max Speed for inexperienced users

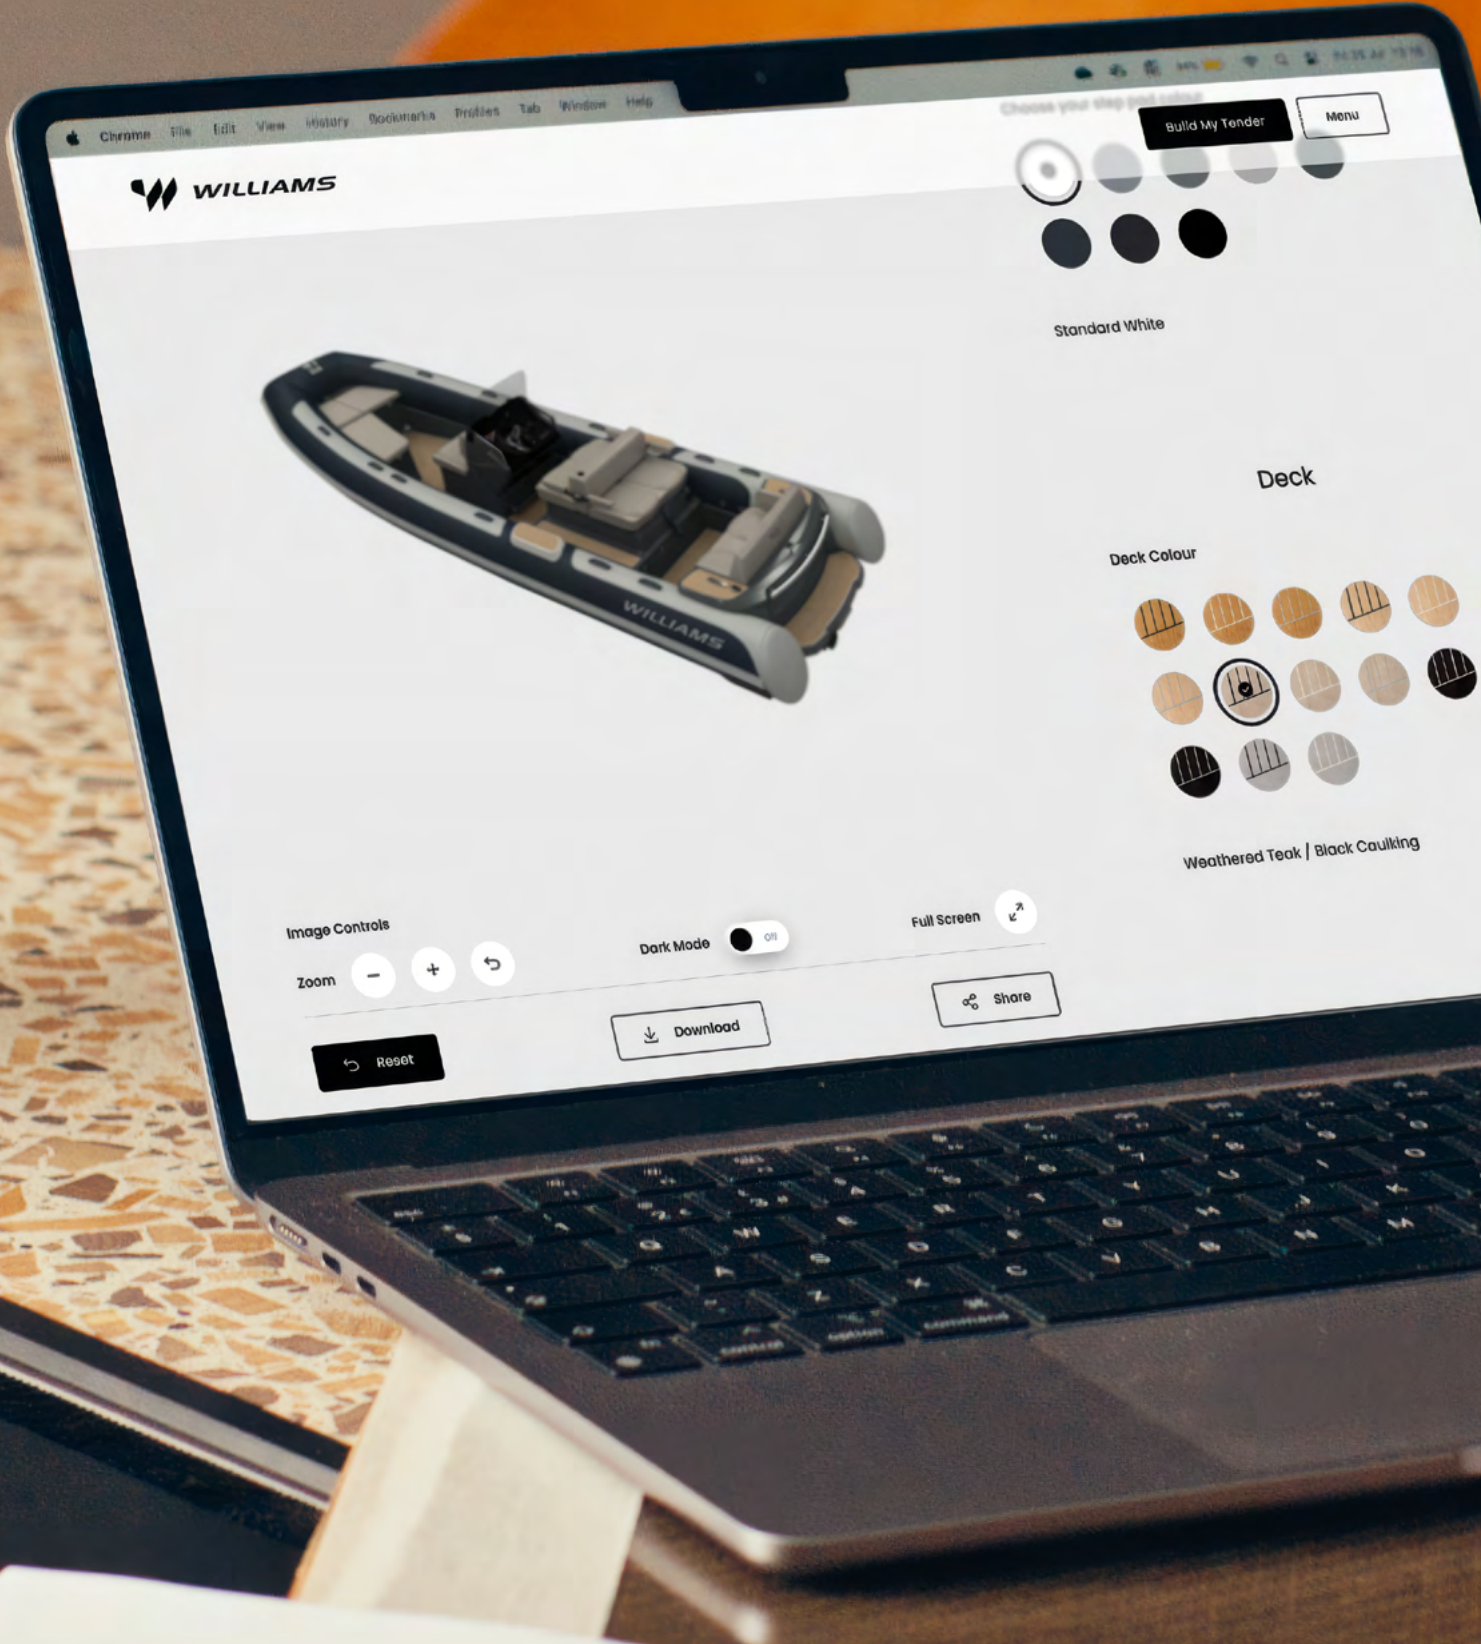

Extra safe

No propeller for safer swimming & marine wildlife

Making your tender uniquely yours

The joy of custom.

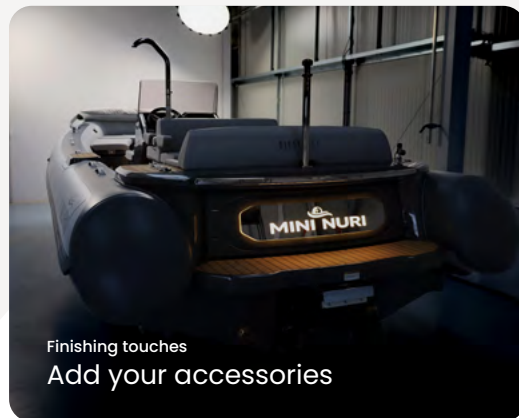

Our tenders are designed to be beautiful inside and out. Every custom detail integrates seamlessly and is crafted to the highest of standards.

Sustainability & innovation

Leaving a clean wake.

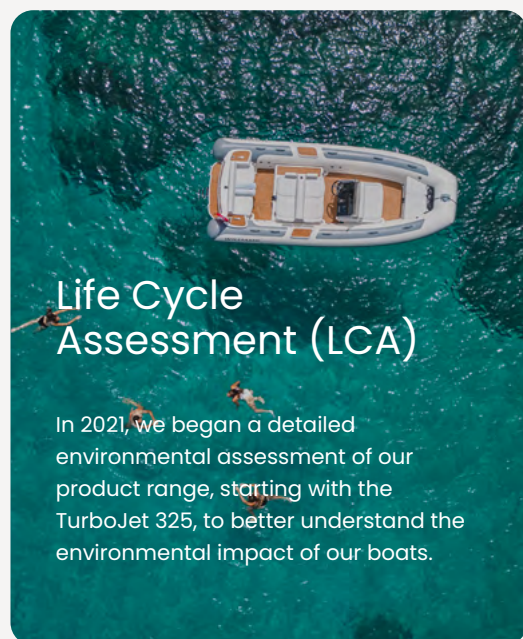

Our mission.

Our climate is changing, oceans are polluted, nature is in decline. Williams Jet Tenders believes that the marine industry needs to take responsibility for the environmental impact of its products.

At a time when climate change poses ever greater challenges, Williams is focused on finding sustainable ways for people to experience the earth's oceans.

Our vision is to move towards a climate positive business footprint, built using environmentally friendly materials, powered by zero emission propulsion systems.

Williams' selected 4 of the 17 SDG's to provide a strategic framework for our sustainable actions:

TURBOJET

285

The **TurboJet 285** fits into smaller garages and bathing platforms of most 12–16m (39–52ft) yachts, so it's ideal for smooth trips to the quayside for supplies or a leisurely bite to eat. But it's when you fire up the BRP Rotax engine, carve tight circles into the waves and go flat out in straight lines that you and your three passengers will discover why we call this iconic tender the TurboJet.

TURBOJET

325

Thanks to its clever engineering and generous storage, the TurboJet 325 can easily accommodate four adults and keep their essentials dry as you spend a day on the waves. But press the throttle forward and feel the surge of the Rotax engine coming to life, and all thoughts of how practical the TurboJet is will disappear. And with a 40-litre fuel capacity, you can be confident that cruising further afield won't be an issue – just make sure you don't forget the wakeboard and water skis.

SPORTJET 345

We've designed the SportJet 345 to fit on 16m+ yachts, so owners of smaller yachts can now experience the ultimate high-performance sports tender.

And even though we made it to be compact, it's still big enough to comfortably seat five adults and carry them away on far-flung cruises with its ample 50-litre fuel tank.

They're guaranteed to enjoy the ride too, with the 345's BRP Rotax engine and expertly designed sports hull providing power and precision in one small but mighty package.

Specification

SPORTJET 395

The SportJet 395's low seating configuration means its six passengers revel in every twist, turn, and burst of acceleration. At the same time, its increased tube diameter improves stability, keeping you drier in choppy waters and giving you the freedom to go further and explore more. With the 395, endless memorable days of fun, relaxation and sporting action stretch out before you – whatever the conditions.

Specification

SPORTJET 435

The SportJet 435's blistering acceleration and top speed of up to 50mph (130hp) is matched by its incredible stability and pinpoint handling. And thanks to its sociable seating layout, up to seven passengers can enjoy the ride as you power along crystal clear coastlines or rip around the bay with wakeboarder in tow. Not forgetting, of course, that the SportJet 435 is ideal for yacht tender duties and will fit comfortably on the back of 20m+ motor yachts.

Specification

SPORT JET

460

With its specially designed hull planting it in the water, the 460 is a super-comfortable cruiser, perfect for safe, straight-line tracking and cruising along the coastline. But with a top speed of 77kph (48mph) and the responsiveness to grip hard in the turns, it's also a whiteknuckle ski boat that can give up to six passengers the thrill of their lives.

The development of iDF (intelligent Debris Free) provides the helmsman the opportunity to safely and remotely clear debris from the jet inlet, and is included as a standard feature on both 460 and 520 models.

Specification

LOA	4.59m/15ft 1in
Beam	2.01m/6ft 7in
Dry Weight	615kg/1356lb

SPORTJET 520

We've designed the SportJet 520 to fit on 30m+ yachts. Utilising the ultra-reliable 230hp Rotax engine, the SportJet 520 can achieve a blistering top speed of 56mph, so you won't be able to wipe the smile from your face.

The SportJet 520, our largest model in the SportJet lineup, offers a spacious sunbathing area, ample storage, and the capacity to accommodate seven adults comfortably. From practical tender duties to adrenaline-fuelled days in the sun, the SportJet 520 is the master of them all.

DIESELJET

445

An overhauled helm with a centrally mounted Raymarine display puts you in complete control. Slash-cut tubes make the ride look and feel even sleeker. And larger bathing platforms and extra grab handles make boarding and bathing a breeze.

And with more storage, new upholstery, and space for another passenger to ride in ultimate comfort, the best diesel tender just got better.

DIESELJET

505

The DieselJet 505 excels in both comfort and practicality. Its ingeniously designed layout offers ample room for eight passengers to relax while ensuring there's plenty of storage space for their belongings. A sense of security carries on inside the boat, with handholds and leg bolsters to keep you firmly in place so you can focus on just enjoying the ride.

Add to that new Silvertex upholstery and space for another passenger to ride in ultimate comfort, and the best diesel tender just got better.

DIESELJET

565

If you own a superyacht over 35 metres, you need a tender equal in stature; that's where the DieselJet 565 comes in. With unparalleled craftsmanship and expertise, we've designed the DieselJet 565 to mirror the splendour you're used to on your yacht.

This means its nine passengers can luxuriate in glorious comfort, whether you're planing nimbly over the waves or slipping gracefully into the harbour. Available with a 195hp engine, you will never be short of power.

DIESELJET

625

The pinnacle of style and comfort, the DieselJet 625 takes cruising in its stride, ironing out the swell with ease. This Luxury Diesel Tender's ample hull powers through the swell, carrying up to 11 passengers to secret far-flung bays. But don't be fooled by its generous size. Powered by a 230hp Yanmar 4LV engine, the 625 delivers breathtakingly sharp turns and high-speed manoeuvres. Just tell your water skier to hold tight – especially with the 230hp engine.

When it comes to crafting the ultimate getaway experience, it's not solely about the destination; it's equally about the journey itself. The DieselJet has been meticulously designed to exude not only sleek and stylish aesthetics but also spacious and practical functionality. Your guests won't just be impressed by its stunning appearance; they'll be captivated by the sheer elegance of the ride.

DieselJet SOLAS

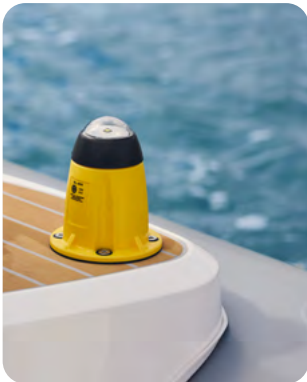

Why aren't all of our tenders SOLAS-certified?

While all our tenders are CE-certified, and more than meet industry safety standards, many tender owners don't need the additional functionality of a SOLAS rescue tender. But for those who do – especially those with yachts that weigh more than 500GT – we want to ensure they don't have to choose between SOLAS certification and the very best tenders on the market.

Power, performance and peace of mind.

SOLAS Specification

- Fire Retardant Resin and Gel GPR Construction
- Hi-Visibility Covers with Retro-Reflective Tape
- Fully Watertight Helm and Deck Construction
- SOLAS Specification Yanmar Engine 4JH Engine (DieselJet 505 only)
- Manually Activated Righting System
- Control Rod Steering System
- Low Profile Quick Release Backrest (DieselJet 505 only)
- Emergency Manual Tiller Arm Control
- Removable Stretcher Mounting Backrest
- Capsize Protected Fuel System
- In-floor lifting points suitable for man-riding activities
- Buoyancy tube handholds
